Physicians and non-physician practitioners who provide clinical services, or staff who encounter protected health information at University of Pittsburgh facilities (e.g., dental clinic, student health services and clinic staff or human resources staff). Staff and Faculty working in other HIPAA-covered departments. Students, Staff and Faculty in the Schools of Health Sciences				X

UPMC employees can access the U-Learn system through <http://myhub.upmc.com>. A UPMC network connection is required to access this system. Records of participation can be obtained through the UPMC MyHub site.

The University of Pittsburgh ISER system can be accessed at: <http://cme.hs.pitt.edu/>. Users do not need to be on the University of Pittsburgh network and can create an account in order to log onto the system.

Certificates can be printed off upon successful completion of the module. Records of participation are also made available to departmental administrators.

Anyone having questions about which modules are required for their UPMC and/or University of Pittsburgh roles should contact their immediate supervisor.
